

DIO

**CORPORATION
INTRODUCTION**

GREETINGS

Technology development
will open new opportunities
in digital dentistry.

DIO has more than 30 years of history in precision manufacturing technology in the implant market. Distinct from others, DIO is recognized for superior technology and premium quality implant production not only domestically, but we export internationally to the USA, China, Europe, and over 70 other countries worldwide.

With dental implants as the main product line, and with other products such as dentistry equipment, dental IT and our medical services business DIO has secured its firm position as the best healthcare company in Korea.

Founder & Chairman Jincheol Kim

A handwritten signature in white ink that reads "Jincheol Kim".

Human Happiness, Healthy Living, Ultimate Value of DIO

With corporate social responsibility, the core of who we are and what we do, DIO's ultimate goal is to pursue and envision a world where everybody enjoys happiness and healthy living.

UF II HSA

Start of All Solutions DIO IMPLANT SYSTEM

DIO Implant System is built for complete treatment in any case.

Hydrophilic Surface Treatment Solution | UV Activator

UV Activator removes organic matter attached to implant surface and reforms its surface.

UV Activator

 Hydrophilic surface with 20-second UV activation

 Intuitive user interface and sleek design

 Treated in 360° degrees of UV light ensuring maximum activation

Experience maximum hydrophilic properties

	Wet	UV-A Wavelength	Dry
			DIO UV Activator
Activation method	Activated during the manufacturing process, delivered in solution-filled packaging	UV activated before use	Chairside UV activation
Activation time		20 hours ↑	Only 20sec
			3,600 times faster!

PRODUCTS

Digital Auto-Merging Program DIO EYE

Innovative registration software for digital implants

Immediately check CT and scan registration errors in the clinic before production.

Reduce the number of visits to patients

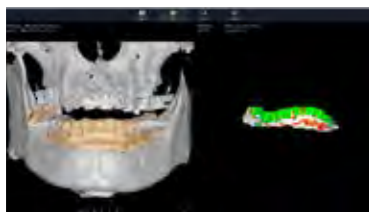

Easy digital data matching

Matching accuracy visible to the naked eye

Digital Auto-Merging Program | DIO EYE

Provides automatic matching function of CT data and oral scan data.

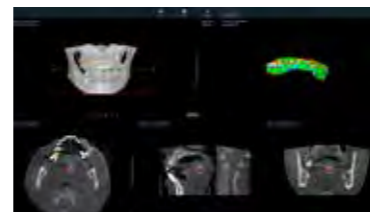

| Auto registration

- Automatic matching function based on natural teeth.
- Automatic marker matching function.

| 3 Point registration

- 3point of CT and oral scan data can be specified and matched.

| Manual registration

- Move scan model directly for matching
- Matched with the contour of the scan data section.

PRODUCTS

Full Digitalized Computer Guided Implant Surgery System DIONavi.

The DIONavi. Digital Implant Platform is more than state-of-the-art technology.

360 degree fleet/
machine-learning enabled
case planning.

Intelligent data-guided
procedures
(DIO EYE)

Real-time case planning—while
your patients relax and wait
in your office

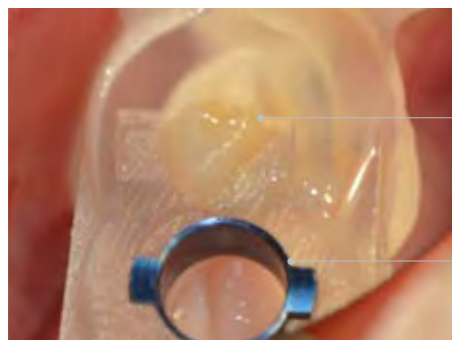

Intelligent data-guided
procedures

Minimally invasive, flapless
implant placement
(no surgical incisions or suturing)

Point-of-care restoration
milling & 3D printing

DIONavi. is the Complete Science

DIONavi. has increased accuracy of implant placement through top-down implant planning that accounts for occlusion and stress distribution. The surgical guide with considerations of anatomical structure can perform safe implant placement

Surgical Guide Fitting
Global No. 1 deviation control

Twist lock sleeve system
Precision / No adhesives

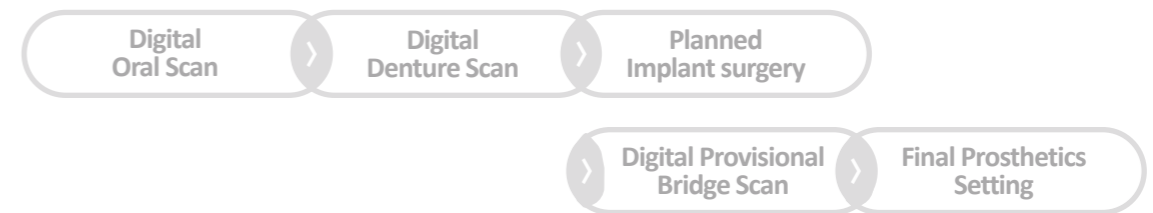

Digital Treatment for Edentulous Case

DIONavi. Full Arch

The Innovative Digital Full Arch Solutions for Dentists and Patients

Edentulous Case Treatment Solution | DIONavi. Full Arch

All the process is in digital workflow without any analogue method. No more impressions. Moreover, it makes your treatment easier and higher.

Easy and accurate with full digital process

Quicker and stronger restoration (screw-retained type)

No alvelectomy with high accurate guide system

Make the most comfortable prosthetics for the patient

All New Digital Orthodontics DIO Ortho navi.

DIO offers brand new digital orthodontic solution, DIO Ortho navi.
DIO Ortho navi. is committed to make orthodontic treatment easy and convenient.

Full Digital Ortho System, DIO Ortho navi.

Fast tooth movement and also allows orthodontist to reduce treatment time compared to conventional orthodontics.

DIO Ortho navi. Bracket

| Custom Base

Individually Customized Bracket Base that minimizes patient discomfort

| Jig Bracket

Able to quickly and Adhere the DIO-patented-jig in the exact location

| Ni-Ti Wire

Finish up the orthodontics by Ni-Ti Wire that does not need Wire bending

| Clip Type Self Tying

Easy to quickly attach the wire to the clip-type Self-ligating bracket, using a DIO instrument

DIO Ortho navi. Digital Clear Aligner

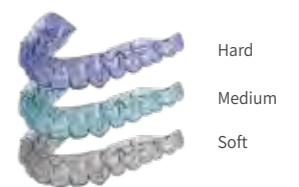

| Digital Clear Aligner (Ver.1)

020 / 025 / 030 3Type Sheet
Digital Set-up
20weeks Re Set-up System

| 3D Printing Model Service

intricate clear aligner is produced through the model that was printed with a DIO 3D model material

| 3Type Sheet

Through digital set up, use 3 different types of aligners with different thickness to move the teeth gradually and ease the pain
