DIO...

a New Leap Forward

DIO has been a leader in the paradigm shift in implant dentistry that is changing the dental implant establishment. With a spirit of creativity and innovation, we are heading for a brighter future in the dental industry.

about DDA

DDA (DIO Digital Academy) is a total education program for dentists that is mainly based on hands-on courses.

DDA provides customized educational program and helps you to create your own network with other dentists.

Its key objective is constant developments of the members and to achieve that, the lectures of DDA includes outstanding lecturers and programs combined theory and practice. The programs will cover the understanding of different clinical cases through the visual aids and hands-on practices with surgical guide(DIONavi.) and observation of live surgery is also included.

The main goal of DDA is to make master of digital treatments and in addition to these educational program, we are ready to offer you the continuous supports.

Benefits of DDA

Special story of a leading dentistry group

1. Mentoring System

This is the program to support DDA graduates. This program will continuously help you to master the entire curriculum after the official academic session.

Regular support programs and consulting are offered and this mentoring system is available until your satisfaction.

2. Exclusive Prime Promotion

This promotion offers Intraloral Scanner (Trios 3) and DIO Digital solution with exclusive price. Introducing the digital equipment like Intraloral Scanner (Trios 3) could be a strain for the clinic but with this Prime Promotion, you can reduce pressure from costs.

3. Continuing education for membership

The members of DDA can join the on/offline seminars.

You will also be invited to DIO International Meeting offering chance to meet worldwide lecturers and DIO users from different countries.
